(Sept 2022 – Dec 2022)

Faculty of Computer Science | Brawijaya University

- Assisted students in preparing Software Requirements Specifications (SRS), Software Design Descriptions (SDD), and software testing documentation.
- Guided students through software implementation and testing activities.
- Assisted students in completing their final project assignments and meeting project requirements.

Internships and Independent Studies Batch 2

(Feb 2022 – Jul 2022)

Understand Everything about Vew JS Front-End Engineer Program | Alterra Academy

- Developed front-end applications using the Vue.js framework through structured learning and hands-on projects.
- Collaborated with UI/UX, Backend, Quality Engineering, and Flutter teams to develop a capstone project.
- Applied front-end development practices in a collaborative, cross-functional development environment.

PROJECT

Arjuna

On Going

Developing the front-end of a national journal accreditation platform designed to support journal accreditation management and related services.

Tech: Next.js, Bootstrap, Golang API, PostgreSQL
<https://staging-arjuna.et.r.appspot.com>

4 Projects from Rancamaya

On Going

Developing a responsive web platform for Rancamaya Golf Estate, covering real estate and hospitality services with dynamic content and API-driven data.

Tech: Next.js, Bootstrap, Golang API, PostgreSQL
<https://www.rancamaya.com>
<https://estate-rancamayadev.planetindonesia.id>
<https://rhotel.rancamaya.com>
<https://golf-rancamayadev.planetindonesia.id>

Goforumrah

Contributed to the development of an Umrah travel booking platform by implementing API integration and dynamic data fetching across multiple pages.

Tech: React.js, Fetch API
<https://goforumrah.com/>

Arjuna

Academic Information System – MTs Riyadlatul Fallah

Developed a web-based academic information system to manage and streamline student report assessment processes.

Tech: PHP, Laravel, MySQL, Bootstrap
<https://github.com/yudhaph0300/web-siakad>

SKILLS

Programming

React.js, Next.js, Vue.js, PHP, Laravel

Database

PostgreSQL, MySQL, Supabase

Tools

Bootstrap, Strapi, Git, GitHub, Figma, Postman, VS Code
